

TRANSLATION OF EH.496, WER HAT SÄT

HE TOO SOWS HATRED

must not count on friendship and collaboration from his own victims. Hitler preached this war for 20 years, prepared it for 7 years, and on September 1st 1939 he unleashed it. All the nations whose lands he has attacked and occupied hate him from the depths of their souls. That doesn't worry him. But the German soldiers, police and officials who represent his robber rule in the countries that are today oppressed are confronted ever increasingly by hidden hatred, and often already by open fury.

IN FRANCE, which you have stripped bare with your plundering, the Germans are called "potato-bugs", "locusts" or "bugs". The little children in the invasion ports call after them "dead fish" - referring to the unsuccessful attempts at invasion made during last autumn; the peasants of Brittany call them "next year's manure", in anticipation of the next attempts - and for other reasons...

IN HOLLAND, where, in the defenceless city of Rotterdam alone, German bombers murdered 30,000 men, women and children in a few minutes, no German any longer dares to go out in the streets alone at night. The numerous canals are deep, and have no railings... The Germans in Holland are called "corpses on leave."

IN NORWAY, the German court has once again ordered the execution of ten patriots. The Germans in Norway are called "Christmas Tree decorations", because of the wish to string them up on the tall pine-trees of the Norwegian forests, when the day comes...

IN POLAND the S.S. terror has been raging since September 1939. Despite this, during the last few weeks, according to the reports of German newspapers, 154 S.S.-men and police - including a police general - have fallen fighting against Polish volunteers. Despite this, invisible hands have already set "the red cock crowing" in thousands of farms that have been stolen from the Poles...

And upon these foundations Hitler seeks to build his "New Order"!

THE DAY IS COMING OF TOTAL RECKONING WITH HITLER AND HIS GANG. ON WHICH SIDE WILL YOU BE THEN? MUST YOUR FATHERS, SONS, BROTHERS, WHO TODAY STAND AS HITLER'S HIRELINGS IN FOREIGN COUNTRIES - MUST THE WHOLE GERMAN PEOPLE PAY FOR ALL THIS? REMEMBER: HE WHO SOWS HATRED

WILL REAP REVENGE!

"BELGRADE IS STILL BURNING!"

Thus the Deutschland Radio reported on April 9th, 1941. On the same day the Yugoslav Government announced:

"We inform all civilised peoples of the frightful crimes committed by the German armed forces in the war imposed upon us.

"Belgrade, the capital of our country, which in good time was proclaimed an open and undefended city, was bombed by German aircraft without a declaration of war.

"On Sunday morning, while the sound of church bells was calling the faithful to church for divine service, a bombardment eclipsing in horror all imagination was launched by German planes. A veritable deluge of incendiary and explosive bombs turned the city into a mass of ruins and gutted homes, while all the streets of Belgrade were covered with the bodies of children, women and old men.

"Never during the long history of this martyr city were such cruelties committed even by the most primitive invaders. The devastation of a defenceless and open city was executed by aircraft of that nation which claimed for itself the first place amongst cultured peoples!

"Horrible scenes occurred during the bombardment when German planes machine-gunned women and children fleeing from their burning homes. Flying low, the German bombers turned houses into hecatombs".

Warsaw, Rotterdam - and now also Belgrade!

These three cities testify what the world owes Germany: the invention of total war!

Total war against the weaker doesn't hurt you!
